

handy and easy to use
small optical inspection system for
pipes from 15 to 50mm

The **minCord** is a very handy and easy to use optical camera inspection system.

Dimension: about 230 x 270 x 110mm

Weight: about 1kg

Camera head: KK13 camera head (13mm outer diameter), stainless steel sapphire glass protected lens
12 Chip LEDs, light continuously adjustable
high res. color camera module; 320k pixel; 0.2Lux/F1.2;
fix focus; 400TV-lines

Cable: 15m Push-Pull-cable; about 5mm outer diameter

Monitor: 2.5" TFT LCD monitor

Recording: on SDHC card (max 8GB)
still images (*.jpg; 640 x 480pixel)
video (*.mov; 640 x 480 pixel)

Power supply: battery with 2400mA; wall power supply

The **minCord** camera system comes in a transportation case with spacer, wall power supply and card reader

MINI CAMARA INSPECCION MinCord 13mm gmt

MINI EQUIPO COMPLETO INSPECCION - GRAVACION FOTO-VIDEO.-
- 1 CAMARA FLEXIBLE DIAM 13mm x 15 metros para TUBOS
- TFT COLOR , BATERIA , USB , SD , SALIDA VIDEO
- MALETIN , CARGADOR , TAMBOR PORTATIL con AJUSTE LEDS

DIAMETRO 13mm x LARGO 15 metros

Technical details

case

- very stable and rugged Peli case
- weight: about 2,8kg
- dimension: about 27 x 24,6 x 12,4 cm

(Detalles Tecnicos - Copia del Original)

KK13

- camera head with outer diameter of 13mm; stainless steel
- camera chip: 1/4" CMOS color camera with about 250,000 pixel; 380 TV-lines; 1.5 Lux / F1.2
- focus: fixfocus
- lights: 12 mini-LEDs, continuously adjustable
- leak tightness: 1 bar pressure tested
- temperature: -10° bis +40°C

camera cable

- Push Pull cable, standard length 7.5m (variable length and cable types on request)

monitor

- integrated high resolution 8" TFT
- screen is protected with glass
- resolution: 1440 * 468 pixel
- contrast: 350:1
- brightness: 350 cd/m²

power supply camera system

- high efficiency Li-Ion battery with charge control; prevention of total discharge
- 3 green LEDs (0 – 100%) show the actual condition of the battery
charge control LED glows green while charging the battery, red when charging is complete
- special charge wall power supply to charge the batteries
- 2 hours operating time

optional

- 12V car adapter
- recording units for moving and/or still video
- the minKo inspection system can be delivered with flexible cable too
